

## MISSION

Leader Breakthrough exists, and makes its greatest contribution in the expansion of the Kingdom of God, when it coaches and resources breakthroughs in the personal development of entrepreneurial, Kingdom leaders.

We are a leadership development, resourcing ministry.

## VISION

To see the expansion of a leadership development movement among leaders who are entrepreneurial, risk-taking, committed to Christ, and passionate to finish well. We see a new movement of leaders called to advance the Kingdom of God into their work and worlds, and on into the next generation.

We believe that God has already begun this new work.

He is calling out leaders, men and women alike, from both the vocational ministry sector and the marketplace, business context.

We therefore desire to fuel these kings and priests of our day (business leaders - church leaders) whose hearts burn to see new expressions of the Kingdom of God, and who long to see a new kind of church.

We will serve, stand with, and do all we can to inflame a passion for leadership development believing it to be essential for this new movement to occur. We will challenge these leaders to develop people, not just organizations, and to bring the expansion of hope into the lives of those they lead, creating ways for others to discover a personal relationship with Jesus Christ (Nehemiah 9:32-34; Luke 19:10).

## VALUES

As we coach, train, resource and create learning experiences for leaders, we seek to serve their needs with the following six core convictions:

- Discovery
- Authenticity
- Mosaic approach
- Safe-place environments
- Alongside posture
